RECENT EXPERIENCE

Research Coordinator at Golden Artist Colors Inc.

New Berlin, New York & Remote | January 2021 – Now

- Lead fine-art materials research and product testing with a team of fine-artists to advance corporate knowledge and ensure product performance
- Meet with senior management to discuss priorities, report on research and review testing for new product development and ad hoc reformulation projects
- Lead weekly team meetings and group testing
- Create and utilize existing project management tools to communicate workflow and track participation resulting in a 23% increase in project completion in 2022 & 2023
- Introduced knowledge management as a corporate discipline by formalizing all testing procedures and simplifying documentation for improved search and retrieval, allowing for better training and a 50% reduction in redundancy while increasing rigor
- Concurrently work as a Material and Application Specialist III while serving as Research Coordinator

Materials Specialist III at Golden Artist Colors Inc.

New Berlin, New York & Remote | February 2018 – Now

- Member of a team of artists tasked with “breaking” products before they go to market by anticipating applications an artist might use in their studio
- Developed expert knowledge of over 100 products
- Present material workshops for the Sam and Adele Golden Foundation’s residency program and higher ed institutions: Yale, Art Institute of Chicago, Rhode Island School of Design, Cleveland Institute of Art, ...
- Author [articles](#) on testing research and materials for Golden’s website JustPaint.org
- Provide technical assistance and consultation to artists, academic institutions, conservators and retailers, contributing to a net promoter score of 81%
