RECENT EXPERIENCE

Research Coordinator at Golden Artist Colors Inc.
New Berlin, New York & Remote | January 2021 – Now

- Lead product testing research and knowledge management for this elite fine-art paint manufacturer

- Direct and manage over 100 projects annually for new product development, reformulations, and customer support projects using project management software to track project timelines, activities, and milestones

- Developed new methods and procedures for project workflow management, cross-functional team communication, and reporting; seeing a 23% increase in project completion between 2022 - 2024

- Introduced knowledge management as a corporate discipline by formalizing testing procedures and simplifying documentation for improved search and retrieval, more efficient training, higher rigor and a 50% reduction in redundancy

- Manage data and reporting for Materials Applications Department and Lab for product testing, non-conformance reports, replacements and samples utilizing Sugar CRM system and SharePoint

Materials Specialist III at Golden Artist Colors Inc.
New Berlin, New York & Remote | February 2018 – Now

- Member of a team of artists who test products before they go to market by anticipating artist applications

- Ideate, research, and write unique internal and customer-facing product content, including technical literature, label copy, marketing collateral, and help articles that represent the company voice and story

- Provide technical assistance and consultation to artists, conservators, retailers and respected art institutions like Yale, SAIC, RISD and more, contributing to a net promoter score of 81%

- Developed expert knowledge of over 100 products
